

## NEWS – ANNOUNCEMENTS ABOUT HEPOS

This page contains:

- news about HEPOS
- announcements regarding the operation of the system, etc.

### 2011/10/25

Due to upgrade of the telecommunication Infrastructure of KTIMATOLOGIO S.A., the internet - based services of HEPOS (Website, RINEX Shop and real time services via GPRS) will not be available on Wednesday, October 26 2011, during the hours 17:00 – 19:00. During this time, the real time services via GSM will be available and the Data from Reference Stations will be archived at the Control Center in order to be available later through the RINEX Shop.

### 2011/10/20

Revision of the General Terms of Use of HEPOS: Effective from November 1st 2011, the new Terms of Use will no longer include the paragraph I.3. The Pricelist of HEPOS services remains unchanged.

### 2011/07/08

Due to upgrade of the telecommunication Infrastructure of KTIMATOLOGIO S.A., the system will not be available on Tuesday, July 12 2011, during the hours of 02:00 – 07:00. According to the upgrade schedule, the system will be again available to the users after the above time.

### 2010/10/29

Due to scheduled maintenance operations in the IT infrastructure of KTIMATOLOGIO S.A., the services of the system will temporarily not be available - Wednesday 3/11/2010 at 17:30. According to the maintenance plan the system will be again available to the users on Thursday 4/11/2010.

### 2010/06/02

Due to scheduled maintenance (software upgrade etc.) the system will not be available on Wednesday 09/06/2010 after 19:00. According to the maintenance plan the system will be again available to the users on Thursday 10/06/2010.

### 2010/02/09

Due to upgrade of the Web Infrastructure of KTIMATOLOGIO S.A., the IP address of the HEPOS Web Server will change on Wednesday, 10/2/2010 at 16:30. The new IP address has already been announced by e-mail to the registered users. It will also be given in the new version (1.2) of the “Instructions for Using HEPOS Real-Time Services” (paragraph 6.2).

### 2010/02/04

Due to upgrade of the Web Infrastructure of KTIMATOLOGIO S.A., within the following days there will be some modifications in the connection of the users with the HEPOS Web Server:

- For the users that connect with the website of HEPOS, if their connection is not feasible through [www.hepos.gr](http://www.hepos.gr), they may **temporarily** try to connect by typing (immediately after http://) the IP address 212.54.198.55
- For the users of real time services via GPRS, there is no change for the moment, **until newer announcement.**

### 2009/12/22

A new document titled “Instructions for the HTRS07 ↔ GGRS87 and the use of GPS” is now available at the “Usage instructions” page of [www.hepos.gr](http://www.hepos.gr), containing general instructions for

this transformation and the conduction of measurements using GPS. This document was composed on the occasion of the beginning of the contracts for the Phase B of the National Cadastral survey.

### **2009/11/10**

The Bank Account details for the payments of HEPOS registration and usage fees **have changed**. The **new** details are the following:

BANK	Account No.	IBAN
NBG	099/47026549	GR40 0110 0990 0000 0994 7026 549
ALPHA BANK	158.00.2320.005758	GR88 0140 1580 1580 0232 0005 758
PIREAEUS BANK	5023001711570	GR21 0172 0230 0050 2300 1711 570
EUROBANK	0026.0281.79.0200085582	GR56 0260 2810 0007 9020 0085 582

Note that, the previous bank account with details “EUROBANK 0026.0281.72.0200470141”, has **ceased to be in effect**.

### **2009/07/09**

Due to scheduled maintenance (software upgrade etc.) the system will not be available on Monday, July 13 2009, during the hours of 20:30 – 23:30.

### **2009/06/12**

On Sunday, June 14 2009, the internet - based services of HEPOS (Website, RINEX Shop and real time services via GPRS), will not be available due to technical maintenance activities at the central facilities of Ktimatologio S.A., which are planned for the hours 6:00 – 16:00. During these hours, the real time services via GSM will be available and the Data from all Reference Stations will be archived at the Control Center in order to be available later through the RINEX Shop.

### **2009/05/25**

HEPOS services are made available to all interested users. The new Registration Procedure, Application Form and Terms of Use are available at the “Registration” page of [www.hepos.gr](http://www.hepos.gr). The pricelist of the HEPOS services is available at the “Information” page of [www.hepos.gr](http://www.hepos.gr).

The official software for the bidirectional coordinate transformation between the Geodetic Reference System of HEPOS (HTRS07) and the GGRS87 is now available at the “Downloads” page of [www.hepos.gr](http://www.hepos.gr).

### **2009/04/03**

The presentations of the Meeting “HEPOS – Hellenic Positioning System: Operation - Capabilities - Perspectives” that was held in Athens on 24/2/2009, are available at the website of the Hellenic Association of Rural and Surveying Engineers. <http://www.psdadm.gr/psdatm/server/more.asp?cat=51&sub=51&lng=GR&ID=23>. The presentations made by KTIMATOLOGIO S.A. are also available at [www.hepos.gr](http://www.hepos.gr).

### **2009/02/17**

A Meeting on HEPOS, entitled “HEPOS – Hellenic Positioning System: Operation - Capabilities - Perspectives” will be held in Athens (War Museum, Vas. Sophias Ave. and 2 Rizari St.) on Tuesday 24/2/2009. The event is organised by the Hellenic Association of Rural and Surveying Engineers with the collaboration of KTIMATOLOGIO S.A.

The program of the meeting is available at:

[http://www.hepos.gr/hepos/HEPOS\\_meeting\\_090224\\_gr.pdf](http://www.hepos.gr/hepos/HEPOS_meeting_090224_gr.pdf).

### **2008/11/17**

Due to scheduled maintenance (software upgrade etc.) the system will not be available on Wednesday 19/11/2008 after 18:30. According to the maintenance plan the system will be again available to the users on Thursday 20/11/2008.

### **2008/10/23**

The presentations of the Workshop “HEPOS and modern geodetic reference systems – theory, realization, perspectives and applications” that was held in Thessaloniki on 25&26 September 2008 are available at ([http://users.auth.gr/~kvek/HEPOS\\_2008](http://users.auth.gr/~kvek/HEPOS_2008)). The presentations made by KTIMATOLOGIO S.A. are also available at [www.hepos.gr](http://www.hepos.gr).

### **2008/10/16**

Due to scheduled maintenance the system will not be available on Friday 17/10/2008 after 19:00. According to the maintenance plan the system will be again available to the users on Saturday 18/10/2008.

### **2008/10/07**

Due to scheduled maintenance (software upgrade etc.) the system will not be available on Thursday 09/10/2008 after 19:00. According to the maintenance plan the system will be again available to the users on Friday 10/10/2008.

### **2008/08/26**

A Workshop on HEPOS will be held in Thessaloniki on 25&26 September 2008 “HEPOS and modern geodetic reference systems – theory, realization, perspectives and applications” ([http://users.auth.gr/~kvek/HEPOS\\_2008](http://users.auth.gr/~kvek/HEPOS_2008)).

### **2008/08/25**

Due to upgrade of the Web Infrastructure of KTIMATOLOGIO S.A. within the following days, the IP address of the HEPOS Web Server will be changed. The new IP address will be announced upon its effect by e-mail to the registered users. It will also be given in the new version (1.1) of the “Instructions for Using HEPOS Real-Time Services” (paragraph 6.2).

### **2008/07/21**

Due to scheduled maintenance (software upgrade etc.) the system will not be available on Thursday 31/07/2008 after 16:00. According to the maintenance plan the system will be again available to the users on Friday 01/08/2008.

### **2008/03/19**

The programmed disposal of HEPOS services to non-Contractors of 3d CSF Projects of KTIMATOLOGIO S.A. begins by providing, for the moment, only licenses of use of real-time services, to official representatives of geodetic GPS systems. These licenses will provide usage of limited duration, exclusively for:

- Exhibition of the systems they represent, regarding the compatibility with the HEPOS real-time services.
- Convenient composition of users’ guides containing instructions and settings for connecting to the HEPOS system and using real-time services, in order to help the users of HEPOS.

Anyone interested can send an e-mail to the following address ([hepos\\_support@ktimatologio.gr](mailto:hepos_support@ktimatologio.gr)) that must include the Company’s label, the types and the firms of the geodetic GPS systems they officially represent. KTIMATOLOGIO S.A. will send back a list describing all required documents, plus a registration form for this kind of use of HEPOS, including special terms.

It is highlighted that, for the moment, only Contractors of 3d CSF Projects of KTIMATOLOGIO S.A. and official representatives of geodetic GPS systems can register to the system. The system's disposal to all users will be announced on this page. It is mentioned that such a progressive disposal is necessary, due to various and complex preparation issues that implementation of a National Reference Stations Network (one of Europe's largest) must take into account.

**2008/02/25**

HEPOS is available to the users. For the moment, the services of HEPOS will be exclusively provided to Contractors of Projects of KTIMATOLOGIO S.A. The availability to other users will be announced in this web page.
