Post Processing Services (older data, not available online ⁵)			
7	Daily CRINEX data file provided by “physical” reference stations at 15 sec sampling rate ⁶	1 min	0.10 €
8	Hourly CRINEX data file provided by “physical” reference stations at 1 sec sampling rate ⁷	1 min	0.50 €
9	Retrieval of older CRINEX data files ⁸	Calendar Month	150.00 €
¹ Prices do not include VAT. ² The subscription fee is a one-time fee. Sole exception to this is the case of a previously terminated (for any reason) user who wants to re-register according to the General Terms of Use of HEPOS. ³ The term “User Licence” refers to each access code (user name and password) per service and to each GSM number for which access to the system is granted. ⁴ The monthly fixed cost of RTK services applies to each RTK user licence. ⁵ Due to the increased number of operating reference stations, data will remain online for 30 days according to the General Terms of Use of HEPOS. Thereafter, only data from “physical” reference stations (not VRS) will be provided: a) in hourly compressed data files (CRINEX format) at 1 sec sampling rate and b) in daily compressed data files (CRINEX format) at 15 sec sampling rate. ⁶ Minimum charge: A daily data file. ⁷ Minimum charge: A hourly data file. ⁸ When ordering older data files, in addition to the charges defined in rows (7) and (8), the user is charged for the retrieval of older CRINEX data files from the data archive. This charge is applied on every single order of older data files and on each calendar month of data that is included in the order.			

Please note that this is an English translation of the official pricelist which is compiled in Greek. This English translation is only for information purposes and is not binding. In case of any disagreement between the Greek and the English text, the Greek text prevails.
